

# Xe Global Business Payments: Empowering Your Global Payments

## Seamless Integration, Enhanced Efficiency

Process, execute, and deliver global payments directly from Sage Intacct with:

### Embedded payments

Automate your payment processes, eliminating manual tasks and reducing errors. With our embedded payment capabilities and customizable frameworks, you'll gain a simple end-to-end payment process within your own system.

### Streamlined efficiency

Boost the efficiency of high-volume, time-sensitive payments. Leveraging payments through Xe, embedded within Sage Intacct, minimizes the need for platform switching, saving time and internal resources.

### Fraud + compliance confidence

Protect your payments with global sanction database screenings and built-in banking validation rules. Our robust measures mitigate the risk of payment errors and are rooted in our culture of compliance.
