12:40 PM	45	Caveats – Procedural Matters and How to Get Them Right Caveats can be an important conveyancing tool for protecting your client's property rights where unregistered interests are disputed or could be defeated by subsequent dealings. As swift and timely action is often required, it's important to understand the procedural aspects and ensure caveats are carefully drafted. Robbie Muir Registrar-General of Land, LINZ Toitū Te Whenua
1:25 PM	45	Lease Disputes – PLA Notices through to Relief Applications When the relationship goes bad, bringing a lease to an end – or saving it – is fraught with difficulty. 3.25 PM	45	<p>Clause 10 in Practice: When to Use It, When to Avoid It, and What It Really Costs</p> <p>Clause 10 compensation claims are often seen as a streamlined alternative to formal dispute processes, but do they deliver in practice? This session takes a practical, evidence-based look at how clause 10 operates on the ground, including costs, delays, and common pressure points that can derail outcomes.</p> <p>Drawing on real-world experience, this presentation will examine when clause 10 is fit for purpose, when the Disputes Tribunal may be the better forum, and how to guide clients through both processes with clear expectations around cost, strategy, and likely outcomes. Attendees will leave with practical insights into:</p> <ul style="list-style-type: none"> • The true cost of clause 10 claims (beyond the theory) • Common tactics that increase time and expense • When to redirect matters to the Disputes Tribunal • Practical tips for preparing clients for a Disputes Tribunal hearing 	<p>Fiona Jack Senior Associate, Edmonds Judd</p>

After a decade away from law to expand her family's dairy business, she returned to full-time practice. Her first-hand knowledge of how legal provisions impact day-to-day farming operations has helped shape her approach to drafting clearer, more practical agreements that reduce disputes.
